The Directors

Brussels,

Sent by email

Dear Sir/Madam,

Subject: - Smart, Green and Integrated Transport Challenge
- Information Day on 18 December 2013 in Brussels

The first round of calls under the Smart, Green and Integrated Transport challenge of the new Horizon 2020 Framework Programme will be published at the end of this year.

To support the preparation of proposals, the European Commission is organising an Information Day on **18 December 2013** in the Charlemagne building, rue de la Loi 170, **Brussels**.

The aim of the event is to inform potential participants in the first round of calls under the Smart, Green and Integrated Transport Challenge about the new Horizon 2020 Framework Programme and to offer some unique opportunities for networking.

You are invited to attend this event, which is an opportunity to get first-hand information directly from Commission services and to network with potential partners. There will be also opportunities for questions and clarifications.

For more information and registration, please visit the "Information Day" website <http://ec.europa.eu/research/transport/events/infoday2013>, where you will also find the preliminary agenda of the day.

Please note that registrations will be limited by the maximum capacity of the rooms and a maximum of two representatives from a given organisation will be accepted.

Should you be unable to attend the Information Day, all main sessions will be broadcasted live on Internet on the above website and all presentations will be published after the event.

Please also feel free to transmit this invitation to anyone interested in EU transport research activities and in participation in open calls for proposals.

Looking forward to meeting you in Brussels,

Yours sincerely,

Manuela Soares
